## MODERN METAL PRODUCTS

Division of Technico

Making quality cabinets since 1925

### ABOUT US

We began fabricating metal products in 1925. Then, as now we pay meticulous attention to detail. Our workmanship is superb.

Over the years, we found that many of our customers appreciated our craftsmanship. They still do. That's why after all these years, we continue to build a little more quality than is necessary into all of our products.

Our customers know they can count on us to get the job done right. Superior quality is still our first concern, followed by our traditionally warm, friendly customer service.

We build our products as though peoples lives depended upon them. And they do.

## AED CABINETS

147SM-1

180SM-14R

184SM-1

186SM-14R
